                }}
```

A1

A2

not necessarily true because if one is 0, it's okay

```
if(a!=0){
if ((b / a) ≠ 0)
{
    if (b % a ≠ 0)
    {
        count++;
        sum += (b % a);
    }
}
}
if(c!=0){
if ((b / c) ≠ 0)
{

    if (b % c ≠ 0)
    {
        count++;
        sum += (b % c);
    }
}
}
if ....
if (c / b ≠ 0)
{
    if (c % b ≠ 0)
    {
        count++;
        sum += (c % b);
    }
}

if
if ((a / c) ≠ 0)
{

```

```
                if (a % c ≠ 0)
                {
                    count++;
                    sum += (a % c);
                }
            }
            if ((c / a) ≠ 0)
            {
                if (c % a ≠ 0)
