                result = temparray;
            }
            return result;

        }
    }
}
```

B3

B6

Shifted

temparray[j - (Coefs.Length - 1 - k)]

need to be shifted

B4

Nice try but try this one

B5

if(r ≠ 0) {

ALMOST

5 6 7 8 9

needs to be shifted by - 4

shifting
